

Neobiomics AB and KH Medicals announce an exclusive collaboration for distribution of ProPreams® in Qatar

Stockholm October 3, 2023 - Neobiomics and KH Medicals have entered into a Distribution Agreement under which KH Medicals has the exclusive rights to register, market and sell Neobiomics' proprietary product ProPreams® in Qatar.

ProPreams® is a high-quality product for safe food supplementation with one billion bacteria of three well-documented strains - *Bifidobacterium infantis*, *Bifidobacterium lactis* and *Streptococcus thermophilus*.

Dr. Stefan Johansson, CEO and co-founder of Neobiomics AB, says: "It is indeed exciting to extend our distributor network into Qatar. With its strategic position, KH Medicals is an excellent partner for us, with capacity to make ProPreams® readily available in Qatar."

Khalid Al Ahababi, CEO and co-founder of KH Medicals, comments: "We are delighted to start collaborating with Neobiomics at the Karolinska Institutet Science Park. This innovative company has an R&D pipeline of neonatal care products well suited for our region. This partnership represents a significant addition to our portfolio and fits with our strategy to build a strong and niched business."

About Neobiomics

Neobiomics AB was founded in 2016 by Stefan Johansson and Philipp Novak to solve unmet needs in pediatric health care, located at the Karolinska Institutet Science Park in Stockholm, Sweden.

About KH Medicals

KH Medical is a Qatar based distributor of food supplements, pharmaceuticals, and medical technologies, acting as an agent for world specialized industry leaders in the MENA region.
